My name is Elias Vance and I am a 35-year-old expert in strategic communications and public relations with more than a decade of experience. I am motivated by helping organizations change the way they communicate and interact with their stakeholders. I am skilled at creating interesting stories, handling different media platforms and forming relationships that improve a brand's reputation.

Being from Vancouver, British Columbia, I often travel to other continents to work with clients from various industries. I have a Master's degree in Communications from the University of British Columbia and I focused on crisis communication and digital influence. I am especially interested in how global media is changing and the skill of telling stories that matter.

When I'm not helping clients, I usually go hiking in national parks, practice photography or read about historical figures. I can speak English and French fluently and I am now learning Mandarin, eager for the next opportunity to learn.

Even though slots are our biggest category, our [Rickycasino](#) table games are not far behind. This part of the game is ideal for those who want a new kind of excitement that requires both strategy and skill. It is important to learn the terms, rules and how to play when using table games. In this area, you have the option to play French, American and European online roulette. We also have popular games such as Poker, Baccarat, Blackjack, Sic Bo, Dice and a few more.

Although the results are decided by an RNG, Australian players will still enjoy the interesting features in these titles. New players can use these RNG games to practice and improve their skills before joining the live casino section to play with professionals. Among the options we provide are:

- MultiHand Blackjack
- Casino Hold'em
- Baccarat Pro
- Rocket Dice
- Maxi Roulette

## Ricky Casino offers Live Dealer Games.

You can enjoy a real casino atmosphere [in the Ricky Casino](#) live games with dealers section. If you want to experience a real casino, you can visit our Live section. Although we have fewer live shows, the ones we do have are of excellent quality.

You can enjoy a lot of excitement by playing different live dealer roulette games and baccarat. While playing live roulette, you use the controls on your screen to tell the dealer what you want to do and how much to bet. You can watch a human dealer spin the wheel and drop the ball during high-definition live streams. You want to bet on the location you think the ball will end up.

When you play baccarat, you compete against the dealer. The goal is to make a hand that adds up to a number closest to nine. You have the option to bet on the player's hand, the banker's hand or a tie. Hence, you should have a good strategy in place before you play against a professional dealer. You can try out some of our thrilling live casino games such as:

- SwinttLive Roulette
- Tiger Bonus Baccarat from SwinttLive
- 500x Lucky Roulette
